### ADD device in EZ mode (default)

Next step: confirm the WiFi for device connection and enter the password. Tap "Confirm" and start connecting the device. (remarks: only supports 2.4G Wi-Fi network), as shown in the picture.

The connection process takes up to 30 sec. If **EZ mode** fails, try **AP mode**.

#### Remarks:

*The purpose of this step is to let the "Caliber Smart Home" app know which router to use for Wi-Fi network connection. After a successful setup, the device will automatically connect to the Wi-Fi network.*

### ADD device in AP mode (alternative mode, Hotspot)

When the internet connection is unstable, the app will show a message as in “img 1”  
The connection has failed, now it's time to try again in **AP-mode**

1. Tap “+” (ADD Device)
2. Choose **AP-Mode** on the top right of the screen.
3. Press and hold the reset button (3) on the rear for 5 sec.  
Press and hold the button again for 5sec. The LED indicator will blink slowly in blue.
4. Enter the password of your Wi-Fi network and confirm.

**Note:** If you're installing a different product, please tap “view help” to see product specific instructions per connection mode on screen.

[No. 6 Scene's & Automation](#)

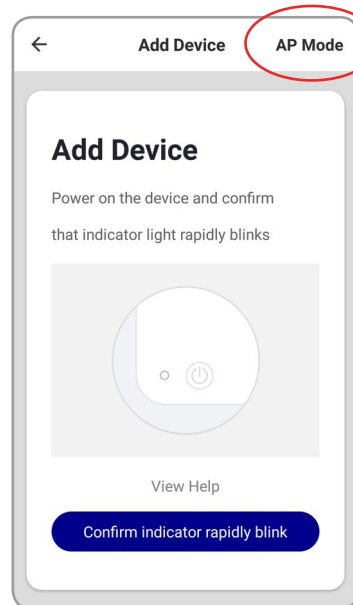

[No. 7 Voice control](#)

[No. 8 Trouble shooting](#)

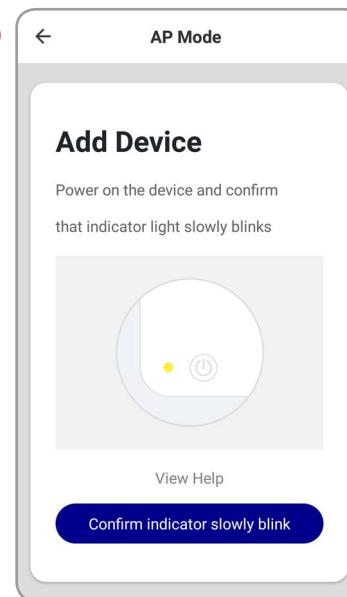

[No. 9 Specifications](#)

### Possible reasons why a device cannot be added:

1. The device is not powered on
2. WiFi signal is strong and stable, distance between device and router should be not too far
3. The smartphone cannot connect to WiFi
4. Wifi password not correct
5. The device is in configuration state (When a device needs to be added, you need to bring it into WiFi configuration state)
6. You selected a 5GHz network (with dual band routers) Devices only support 2.4GHz network

### Router issues:

1. Encryption mode should be WPA2-PSK type, Authentication type AEX or set to "automatic".
2. Wireless mode cannot be 11n only
3. Max number of connected devices has reached upper limit of router. Disconnect other devices from WiFi

### 1. PRODUCT DESCRIPTION

HWS601 is a water flood sensor. Beeps and sends an alert when water is detected.

### 2. FEATURES

- Works with IFTTT
- Wireless water flood sensor
- Beeps and send alert when water / liquid is detected
- Free “Caliber SMART HOME” app
- Acoustic siren
- Push notification on app
- History records
- No HUB/gateway required
- Trigger for scenario’s (E.G: turn pump -via smart socket ON when water is detected)
- Works on 1x CR2 batteries (batteries included - approx. 1 year standby)
- Size: Ø68mm x 24(H) mm
- Water resistant (IP55)

Working current :	Max 100mA
Standby current :	13µA
Battery capacity :	1x CR2 3V (incl.)
Standby time	± 2 years
Working time	± 1 years (15 times/day)
Working humidity:	20% ~ 85%
Sound intensity:	90dB/1m
Wireless transmitting/ Receiving :	2.4GHz-2.484Ghz
Network protocol :	IEEE802.11b/g/n
Wireless distance:	Max. 45m
Working temp. :	-0° + 40°C
Size:	67(W) x 24(D) x 67(H) mm

Set consists of: Water sensor HWS601  
Manual  
Bag mounting material  
Mounting sticker  
Battery 1x CR2  
Probe  
Holder
